

Making your risk free switch

Energy Advisory Services from Mitie

The utilities landscape is complex and volatile

Volatile & increasing commodity costs

Demand for 'green' source power, in competitive and limited market

Policy & Regulation impacting consumers

Complex supplier and product landscape

Billing errors, increased by changing customer property portfolios

Shift in buyer long-term risk appetite

Increasing use of electricity in move to degasify properties

Demand for data to inform business and sustainability strategy

The UK along with Europe, Asia and other parts of the world is tackling a natural gas shortage. This is pushing up wholesale gas and electricity prices to unprecedented levels which will impact retail tariffs for households and businesses in the months and years ahead. The global gas situation is also raising fears that consumers could be without electricity or gas at times this winter.

End to end energy & utilities services from Mitie

A close-up photograph of a small green seedling with several leaves growing out of a crack in a grey, textured rock. The background is a soft-focus natural setting.

Bill validation and payment services

Site by site cost and consumption reporting

Budget and accrual reporting

Power and gas transacting

Green power and gas contracts (PPAs and GPAs)

Price and volume position management

Portfolio management

Consumption data management

Green certificates administration and procurement

Long term price forecasting & horizon scanning

Making a risk free switch

Your allocated Account Manager will own and mobilise your services in collaboration with you.

I'm worried that things will get missed or dropped during transfer

Our detailed '52 Point Checklist/Risk List' will ensure a smooth transfer of services

I don't know what information I need to provide to a new provider

We'll provide a list of the data required and their sources at the outset

My organisation can't afford for there to be any interruptions in utilities provision

We'll ensure there are no penalty rates applied by suppliers and source short term contracts if required

There isn't capacity in my team to manage the process of switching

Our dedicated data management team will liaise with your current supplier and service providers

I'm worried my current broker is hiding costs

You'll get clear pricing from Mitie, there are no hidden costs or expenses

It's more than a switch. Your Business, is Our Business.

We proactively manage the energy used by our customers, eliminating errors, risk and cost.

We managed 68,000 meters and over 17.8TWh power in FY20/21

We recommend green procurement solutions, minimising environmental impact & price volatility.

We are managing exposure of £2.5bn wholesale commodity costs to 2025

We enable our customers to decrease energy consumption, reducing cost and carbon impact.

Our market leading software Orbit provides detailed analysis of sites & consumption

We exclusively offer our BoltON services to Mitie customers further reducing your energy exposure.

Quick to deploy solutions to decrease cost, carbon and risk
